【Collaboration】Eco+Kricafe (<https://facebook.com/EcoKriCafe>)

Talk Community by Shinagawa Ecolive Office

ICSE have meetings for people who are interesting in the business solution to mitigate the problems such as poverty, unemployment, environment, health and education. For the third meeting, we invite Dr. Kimura, the chairman of NPO Michibunshinbito which aims to solve the problems in developing countries on the thought that "Solve themselves by the appropriate technology" <http://coreroad.org/michibushinbito.html>

After Dr.Kimura's speech, we will have free discussion.

Program

< Speech is Japanese, but supported by English >

Repairing Roads to let local people have a motivation

~From charity to local people to their own business~

NPO Mitibushinbito chairman Dr. Makoto Kimura

18:30

~

19:30

Professor : Geomechanics Division, Department of Civil & Earth Resources Eng.
Graduate School of Eng. Kyoto University

"Michibushinbito" means repairing their own roads by themselves. The NPO is transferring "Do-nou" technology in 18 countries including Kenya, Papua New Guinea, Myanmar, and Burkina Faso. The long term goal is to alleviate poverty in rural areas of third world nations.

19:30~

Q & A

20:00

20:00
